✓	Environment	9.4
✓	Competence & Training	9.2
Verification Visit Date:		11 March 2016 10 March 2018

Apr 14, 2016 10:07 CEST

## FPAL Verified Assessment 2016

**ESVAGT was assessed by FPAL on 10 and 11 March 2016.**  
**EXECUTIVE SUMMARY**

### **General:**

ESVAGT operates a fleet of forty-three bespoke AHTS, Multipurpose, Standby and Rescue vessels. ESVAGT designs their own MOB and fast rescue boats.

Since the 2014 Verify assessment, ESVAGT has relocated onshore activities to new, bespoke, workshop, stores, office accommodation, and is under new ownership.

Evidence for this Report has been gathered during a tour of the new premises, interviews with process owners and other key personnel, and desktop review of electronic documentation.

### **Quality, Health & Safety and Environment:**

ESVAGT demonstrates close control of quality, health, safety and environmental management and performance during this transitional period.

Strong customer focus, excellent safety performance and robust environmental controls are demonstrated.

### **Competence & Training:**

Formal competence assurance processes have been established and good training provision is evident.

### **General Information**

The FPAL Verify process involves a verified assessment of the supplier's Advanced Registration Questionnaire (ARQ) followed by a site visit to their premises to validate the application and implementation of the systems being described.

The visit will also incorporate the collection and verification of information additional to the initial ARQ submission.

The scoring scheme is intended to be transparent to both the supplier and any potential purchaser, and the supplier will be kept apprised of the scores achieved during the verification visit as well as being given an indication of potential areas of improvement.

---

ESVAGT is a dedicated provider of safety and support at sea, founded on an experienced and well-trained offshore crew and unmatched rescue capabilities.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

In 2010, ESVAGT brought the dedicated offshore wind Service Operation Vessels (SOV) to the market. The SOVs provide accommodation for up to 40 technicians, storage for small turbine parts and a workshop, plus personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and more than 900 employees on- and offshore.
