## Logistics centre taken into service

**ESVAGT has significantly upgraded its warehouse and logistics facilities.**

“We now have much more space and can make our layout much better.”

These is how Carsten Larsen, Supply Chain Manager for ESVAGT, talks about the approximately 600 loading metres of warehouse and logistics facilities on Vestre Dokkaj 1 that the shipping company has acquired and recently fitted out.

The upgrade has doubled the amount of room for pallets and that is space that is dearly needed:

“ESVAGT has experienced enormous growth and this could really be seen in the warehouse. Every vessel has its own housekeeping and the warehouse is where we receive, store and dispatch everything from spare parts to printer cartridges and toilet paper. We needed to expand to make room for everything,” he says.

The new warehouse has a fireproofed chemical room and is also environmentally noteworthy thanks to the airlocks on the doors that prevent warm air being lost when goods are being delivered into the warehouse.

---

ESVAGT is a dedicated provider of safety and support at sea, founded on an experienced and well-trained offshore crew and unmatched rescue capabilities.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

In 2010, ESVAGT brought the dedicated offshore wind Service Operation Vessels (SOV) to the market. The SOVs provide accommodation for up to 40 technicians, storage for small turbine parts and a workshop, plus personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and more than 900 employees on- and offshore.
