

At OWE2017 ESVAGT will demonstrate its SOV concept and show how its innovative solutions have helped to shape and change the industry

May 16, 2017 10:06 CEST

Meet ESVAGT at Offshore Wind Energy 2017

When the world's largest offshore wind conference and exhibition, OFFSHORE WIND ENERGY 2017, opens its doors in London from 6 to 8 June, ESVAGT will be there with its own stand for the first time – stand number N-J40.

The OFFSHORE WIND ENERGY 2017 exhibition showcases the latest innovative solutions and technological innovations in the offshore wind industry, making it a natural place for ESVAGT to be, says Søren Karas, Chief

Commercial Officer for ESVAGT:

“As an important partner and part of the ecosystem in the offshore wind sector, we need to be at an exhibition that brings together the many players in the industry. We will meet existing and potential customers, partners and competitors, and reinforce ESVAGT’s long term ambitions in offshore renewable energy,” says Søren Karas.

Among other things, ESVAGT will demonstrate its SOV concept and show how its innovative solutions have helped to shape and change the industry, something that they intend to continue to do:

“Together with customers, ESVAGT has developed new, innovative solutions for offshore wind that have changed the industry in a number of ways. We would like to show how we, as an active partner and in dialogue, can help to develop new concepts. Not only do we need to be in the market and top of mind for those looking for a vessel – we need to be top of mind for those looking for a solution. Dialogue and combined development are high on the agenda in the industry and ESVAGT has a strong position as innovative and respected sparring partner,” says Søren Karas.

About ESVAGT

ESVAGT is a dedicated provider of safety and support at sea, founded on an experienced and well-trained offshore crew and unmatched rescue capabilities.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

In 2010, ESVAGT brought the dedicated offshore wind Service Operation Vessels (SOV) to the market. The SOVs provide accommodation for technicians, spare time facilities, offices and conference room, storage for small turbine parts, workshops, etc. The SOV offers flexible personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and approximately 900 employees on- and offshore.
