## Minister visit at ESVAGT

**Ministers of Energy and wind industry executives experienced offshore wind innovation with a sail in ESVAGT's STB 12.**

The wind energy conference North Seas Energy Days in Esbjerg gathered the Ministers of Energy from the North Sea and wind industry executives to debate the vision of a Silicon Valley for offshore wind in the North Sea.

This is a vision that requires new technology and innovative solutions, which the Ministers gained an insight into during their visit to ESVAGT, a company that has set new standards within efficient operation of offshore wind farms

through its innovative SOV concept. ESVAGT also invited participants on a tour of the 'Esvagt Innovator' and a sail onboard ESVAGT's STB 12 and FRBs.

## About ESVAGT

ESVAGT is a dedicated provider of safety and support at sea and a market leader within offshore wind solutions.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

We service offshore wind farms and have a fleet of dedicated Service Operation Vessels (SOV), which ESVAGT pioneered in 2010. The SOVs provide accommodation for technicians, spare time facilities, offices and conference room, storage for small turbine parts, workshops, etc. The SOV offers flexible personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and approximately 900 employees on- and offshore.
