## Safety is still ESVAGT's incessant top priority during Covid-19 times

**ESVAGT takes the threat of spreading Covid-19 seriously and we do our outmost to limit exposure by following the guidelines and instructions given by the jurisdictions in the countries where we operate.**

Some direct precautions include implementation of social distancing, telework (working from home) for our onshore staff except for a few critical functions, and introduction of alternative crew change patterns and traveling arrangements for our offshore crews to limit personal contact during transit.

As ESVAGT plays an important role in providing safety critical services to the energy sector, we will strive to maintain our operations intact throughout the challenging period with minimum disturbance to our customers and their clients.

Safety has always been the fundamental key value in ESVAGT, and safety will without questioning also be our top priority in these challenging times. Our mantra is **“If we can’t do it safely, we don’t do it all”**. This goes both for when we are at work and at home. Therefore, everybody at ESVAGT is urged to follow the guidelines and instructions given by the authorities and do their outmost to combat the spreading of Covid-19.

## About ESVAGT

ESVAGT is a dedicated provider of safety and support at sea and a market leader within offshore wind solutions.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

We service offshore wind farms and have a fleet of dedicated Service Operation Vessels (SOV), which ESVAGT pioneered in 2010. The SOVs provide accommodation for technicians, spare time facilities, offices and conference room, storage for small turbine parts, workshops, etc. The SOV offers flexible personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and approximately 1000 employees on- and offshore.
