Sale of ESVAGT concluded

ESVAGT - press release

ESVAGT has for a while been subject to a strategic sales process undertaken by our owners 3i and AMP. The process has now been concluded and 3i has decided to buy AMP's 50% share so ESVAGT in the future will be fully owned by 3i. This decision is a testimony to the strong potential 3i see in ESVAGT and a genuine trust in our organization, which we only can appreciate. From a practical point it also means we can continue developing our company "business as usual" and protect the strong ESVAGT values, which has been the foundation for our success since 1981.

We wish 3i good luck as owners of ESVAGT and we will together show that the

full investment into our company was a wise decision.

Peter Lytzen
CEO

3i infrastructure - press release

3i Infrastructure plc invests a further £268 million in ESVAGT
3 DECEMBER 2021

3i Infrastructure plc (“3i Infrastructure” or the “Company”) announces that it has agreed to acquire the stake in ESVAGT owned by its co-investor AMP Capital.

This will result in 3i Infrastructure holding 100% of the equity in ESVAGT. This further investment is expected to be £268 million. Completion is subject to certain third party consents and is expected to take place in the first quarter of 2022.

In its half year results announcement, 3i Infrastructure said that a strategic review of its holding in ESVAGT was in progress and that as part of that review, offers had been invited. However, the Company retained the options of continuing to hold its 50% stake, to sell, or to offer to buy the AMP Capital stake. Binding offers for 100% of the equity were received but not at a compelling price for 3i Infrastructure, and so the Company elected to offer to buy the AMP Capital stake.

ESVAGT is the market leader in the fast growing segment of service operation vessels (“SOV”) for the offshore wind industry. The company is also a leading provider of emergency rescue and response vessels (“ERRV”) and related services to the offshore energy industry in and around the North Sea and the Barents Sea.

Since acquiring ESVAGT in 2015, 3i Infrastructure and AMP have supported management in driving the company’s shift in strategic focus towards SOVs and becoming a key enabler of offshore wind operations in Europe. SOVs represented less than 10% of earnings at acquisition, but have grown to provide the majority of ESVAGT’s contracted earnings today.

During this period, ESVAGT has delivered six new SOVs, and has entered into a joint venture with Crowley in the USA to support the emerging offshore wind energy market there.

The offshore wind market, and hence demand for SOVs, is expected to grow

strongly over the coming years, as many European governments and US states have set ambitious offshore wind build-out targets as part of their wider net-zero emissions plans.

Richard Laing, Chair of 3i Infrastructure, commented:

“ESVAGT’s transition into a market leader in European offshore wind has been a major achievement. We believe that it is well-placed to benefit from continuing attractive growth prospects in the wind sector and we are delighted to be acquiring 100% of the business.”

Phil White, Managing Partner and Head of Infrastructure, 3i Investments plc, Investment Manager of the Company, added:

“We very much look forward to continuing to work with CEO Peter Lytzen and the ESVAGT team to take advantage of the future growth of the offshore wind market, both in Europe and the US.”

Notes to editors:

3i Infrastructure plc is a Jersey-incorporated, closed-ended investment company and an approved UK Investment Trust, listed on the London Stock Exchange and regulated by the Jersey Financial Services Commission. The Company’s purpose is to invest responsibly in infrastructure, delivering long-term sustainable returns to shareholders and having a positive impact on its portfolio companies and their stakeholders.

3i Investments plc, a wholly-owned subsidiary of 3i Group plc, is authorised and regulated in the UK by the Financial Conduct Authority and acts as Investment Manager of 3i Infrastructure plc.

About ESVAGT

ESVAGT is a dedicated provider of safety and support at sea and services both the offshore wind industry as well as the oil & gas industry.

We service offshore wind farms and have a fleet of dedicated Service Operation Vessels (SOV), which ESVAGT pioneered in 2010. The SOVs provide accommodation for technicians, welfare facilities, offices and conference rooms, storage for turbine parts, workshops, etc. The SOV offers flexible personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and approximately 1100 employees offshore and onshore.
