

ESVAGT TBN (H-053) - a MPV (Multi Purpose Vessel) for Hess' oil/gas production in the Danish sector of the North Sea

Jul 02, 2018 09:32 CEST

## Two new vessels delivered to ESVAGT – within the same week

**The latest two new builds for, respectively, the offshore wind and oil and gas sector brings the ESVAGT fleet up to 43 vessels.**

Summer holidays are far from ESVAGT's programme as they enter July.

On Wednesday, the new build, 'Esvagt Dana', was delivered by Zamakona Shipyard in Bilbao, and on Thursday, ESVAGT took ownership of the H-053 new build from Cemre Shipyard in Turkey. This means that ESVAGT starts the

summer with two new vessels – both delivered in the same week – and a fleet of 43 vessels in total:

"Two newly built vessels underline ESVAGT's continued ambition for organic growth within both the offshore wind and offshore oil/gas sectors," says ESVAGT's CEO, Kristian Ole Jakobsen.

The new builds are a CCV (Crew Change Vessel) that however will start operation as a SOV (Service Operation Vessel), during the summer, and an MPV (Multi Purpose Vessel), which will service Hess' oil/gas production in the Danish sector. Both vessels will enter charter over the summer.

*'Esvagt Dana' - a CCV (Crew Change Vessel) that will be modified to temporarily operate as SOV (Service Operation Vessel) during this summer.*

---

## About ESVAGT

ESVAGT is a dedicated provider of safety and support at sea and a market leader within offshore wind solutions.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

We service offshore wind farms and have a fleet of dedicated Service Operation Vessels (SOV), which Esvagt pioneered in 2010. The SOVs provide accommodation for technicians, spare time facilities, offices and conference room, storage for small turbine parts, workshops, etc. The SOV offers flexible personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and approximately 900 employees on- and offshore.
