“We couldn’t have asked for more!”

The secretariat for the Tall Ships Races was based in the offices that ESVAGT recently acquired from IAT.

“We are delighted to have the chance to be spot on in the middle of it all.”

That is what Villy Grøn, project manager for the secretariat for the Tall Ships Races 2014, said about the offices that ESVAGT provided for the secretariat and the race organisation.

Although ESVAGT had just finished building their new premises at the dock harbour and had acquired IAT’s premises, neither the shipping company’s new offices nor adjacent buildings had been put into service when the Tall Ships

Races were on.

That is how accommodation became part of ESVAGT's sponsorship, much to the delight of the secretariat.

“The location is really central and the offices extremely suitable. Discussing practicalities with our neighbours during the Tall Ships Race was much easier face to face than trying to communicate over the phone. Being able to get together on the spot has meant a great deal,” says Villy Grøn.

ESVAGT is a dedicated provider of safety and support at sea, founded on an experienced and well-trained offshore crew and unmatched rescue capabilities.

We support the offshore Oil & Gas industries with a wide range of specialized services: Standby, Emergency Response and Rescue Vessels (ERRV), Oil spill response, Firefighting, Tanker assists, Rig moves, Supply services and Interfield transfer of cargo and personnel.

In 2010, ESVAGT brought the dedicated offshore wind Service Operation Vessels (SOV) to the market. The SOVs provide accommodation for up to 40 technicians, storage for small turbine parts and a workshop, plus personnel and equipment transfer capabilities by either Walk-to-Work gangway system or Safe Transfer Boats.

ESVAGT was founded in 1981 and has a fleet of more than 40 vessels and more than 900 employees on- and offshore.
